INNA LITVAK

SENIOR IT BUSINESS SOLUTION SPECIALIST & SALESFORCE PROJECT MANAGER

Professional Summary: Results-driven Senior IT Business Solution Specialist & Salesforce Project Manager with 15+ years of experience leading complex enterprise software implementations (Salesforce, Jira, Aha!, Docebo). Proven track record in bridge-building between R&D, Product, and Business teams to optimize GTM processes and operational efficiency.

PROFESSIONAL EXPERIENCE

CyberArk - Palo-Alto Networks

Petach-Tikva, Israel | 2018 – Present

Senior IT Business Solution Specialist & Salesforce Project Manager

- **Project & Solution Leadership:** End-to-end ownership of cross-functional enterprise solutions, aligning Product, Support, and R&D processes across Salesforce, Jira, and Aha!.
- **System Integrations:** Designed and executed complex functional and technical integrations between SFDC Community, Aha! (Customer Enhancement Request module), and Jira to stream feedback directly into R&D.
- **L&D & Platform Rollouts:** Led full lifecycle implementation of Docebo LMS integrated with SFDC, driving organizational adoption and customer education.
- **Process & Change Management:** Conducted hands-on user workshops and training sessions for key stakeholders to ensure smooth adoption and optimized GTM workflows.
- **AI & Innovation:** Leveraged Claude AI to enhance business analysis, workflow documentation, and operational efficiency.

ECI TELECOM

Petach-Tikva, Israel | 2009 – 2018

IT Sales & Marketing Project Manager

- **Enterprise CRM Rollout:** Led deployment of Oracle Sales Cloud & CRM on Demand for 200+ global users (Sales, Pre-Sales, Management) with ERP, Eloqua, and SharePoint integrations.
- **Business Process Re-Engineering:** Redesigned core commercial, sales, and bid management workflows (SharePoint/BPM) to optimize cross-departmental collaboration.
- **System Integrations & Logistics:** Managed integration of Web RMA applications with ERP logistics modules and connected Jira to core development tools for R&D processes.
- **Field Ops & Resource Management:** Deployed Clarizen for IT/R&D resource allocation and implemented CRM Service Portals to support Field Service Engineers.
- **Data & Lifecycle Management:** Directed large-scale Data Migration, ERP R12 upgrade, QA execution, and hands-on training workshops.
